

BAE Systems

Claire Collins and Stuart Breen both attended NTEC 2022-23

Cyclife

“Being able to attend the NTEC careers fair as a previous NTEC student to represent Sellafeld Ltd was a great opportunity to explain Sellafeld's mission to those interested in the nuclear industry, and to discuss the opportunities available at Sellafeld for both students and graduates. It also allowed me to highlight the benefits of the NTEC course in my career progression due to the knowledge I obtained on the nuclear industry and the opportunity I had to work alongside CRA and Sellafeld on my dissertation project, both of which gave me a strong foundation of knowledge and relevant experience that I could use once joining the company” - Caitlin Redhead, Sellafeld
